About Company

IA SoftTech Sdn Bhd is a leading IT solutions provider specializing in system integration, managed services and end-to-end IT solutions. With a strong presence in cloud computing, cybersecurity, software development, IT infrastructure and defence systems, we deliver cutting-edge technology to enterprises and government sectors.

We believe in driving innovation and empowering businesses with transformative IT solutions. Our team of highly skilled professionals works closely with clients to understand their unique challenges and deliver tailored solutions that optimize operations, enhance security and promote digital growth.

As a trusted IT partner, we leverage our strategic alliances with global technology giants to bring world-class solutions to local and international markets. We continually invest in research and development, as well as talent development, to stay ahead of technological advancements and provide cutting-edge solutions to our clients.

Values We Hold

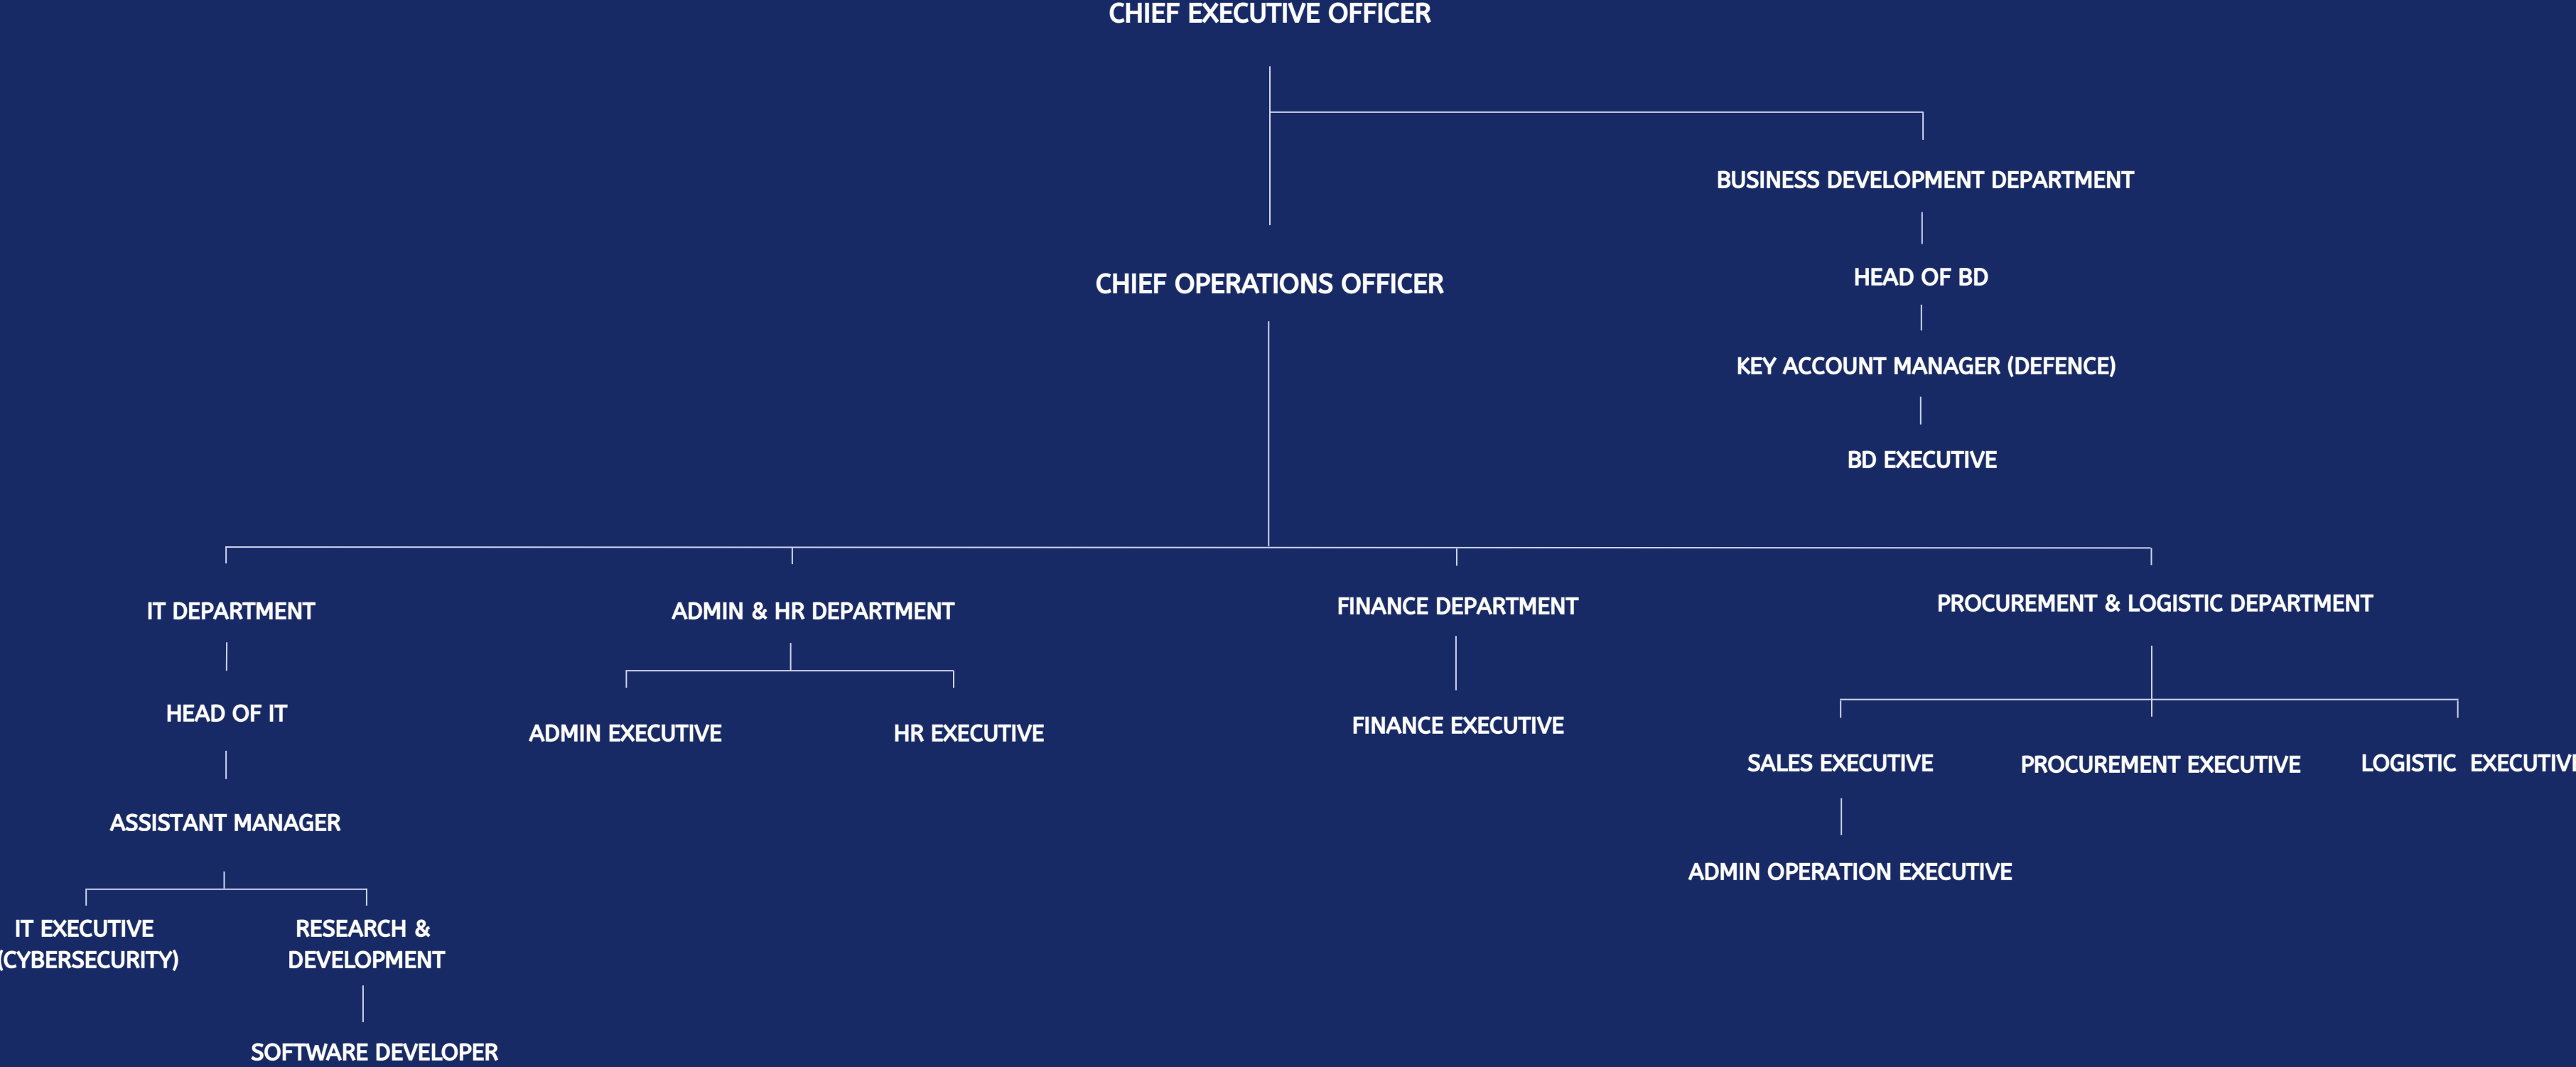

Vision

Our vision is to be the leading IT solutions provider in Asia, driving digital transformation through innovation, excellence and strategic partnerships.

Mission

Our mission is to expand our footprint across Asia while establishing a dominant presence in the domestic market. Through innovation, strategic partnerships and a commitment to excellence, IA SoftTech Sdn Bhd aims to be the preferred IT solutions provider in the region.

Organisation Chart

Business Focus

We focus on empowering public sector and enterprise clients through smart, scalable, and secure digital solutions. Our goal is to help organizations modernize their systems, streamline operations, and achieve measurable impact through technology.

With a proven track record in government and enterprise projects, IA SoftTech delivers comprehensive end-to-end IT services, ranging from system development and integration to digital transformation consulting and long-term support.

Our Services

END-TO-END IT SOLUTIONS

Delivering comprehensive IT strategies and solutions.

IT CONSULTING

Offering expert advisory services for IT infrastructure and digital transformation.

MANAGED SERVICES

Providing proactive IT management and support.

SYSTEM INTEGRATION

Seamlessly integrating technology solutions to enhance business operations.

SPECIALIZED SOFTWARE DEVELOPMENT

Developing tailored solutions for the finance, healthcare, and government sectors.

Core Strengths

Expertise in cloud computing, cybersecurity, software solutions, IT infrastructure and defence systems.

Strong partnerships with global tech giants including IBM, Cisco, Microsoft, HP, Aruba, Tech Data, Lenovo, Huawei and Dell.

Recognized IT vendor with credibility in both domestic and global markets, trusted by government agencies and enterprises.

Competitive Advantages

1. Strong Industry Expertise

Deep knowledge and experience across multiple technology domains, ensuring high-quality solutions.

2. Global Technology Partnerships

Collaborations with industry leaders provide access to cutting-edge technology and best practices.

3. Tailored IT Solutions

Customized approaches for finance, healthcare and government sectors to meet specific operational needs.

4. Proven Track Record

Established credibility and trust with government agencies and enterprises, backed by a portfolio of successful projects.

Competitive Advantages

5. Comprehensive IT Services

Offering end-to-end solutions, from consulting to integration and managed services, ensuring seamless digital transformation.

6. Highly Skilled Workforce

Continuous investment in talent development, certifications and training ensures we stay ahead of industry trends.

7. Market Recognition

Registered with MOF and MyGovernment, ensuring eligibility for government tenders and procurement opportunities.

Project

1. **Web-Based Helpdesk System**
2. **Inventory Asset Management System**
3. **IA SoftTech HRMS Application**

Web-Based Helpdesk System

Designed with simplicity and efficiency in mind, the system provides employees with an intuitive interface to submit support requests anytime, anywhere.

Objectives

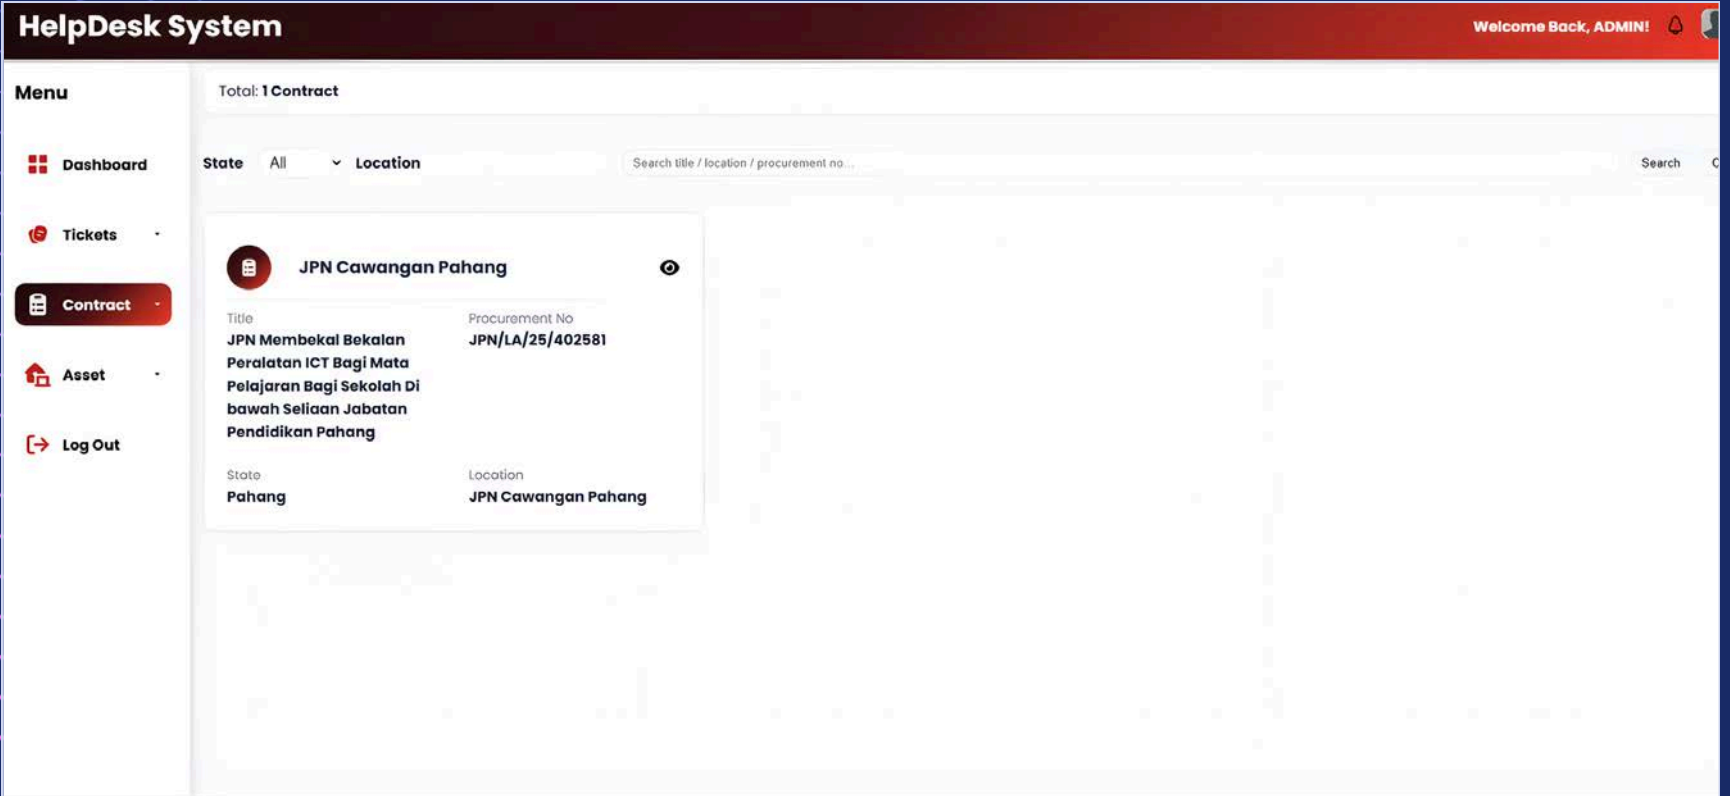

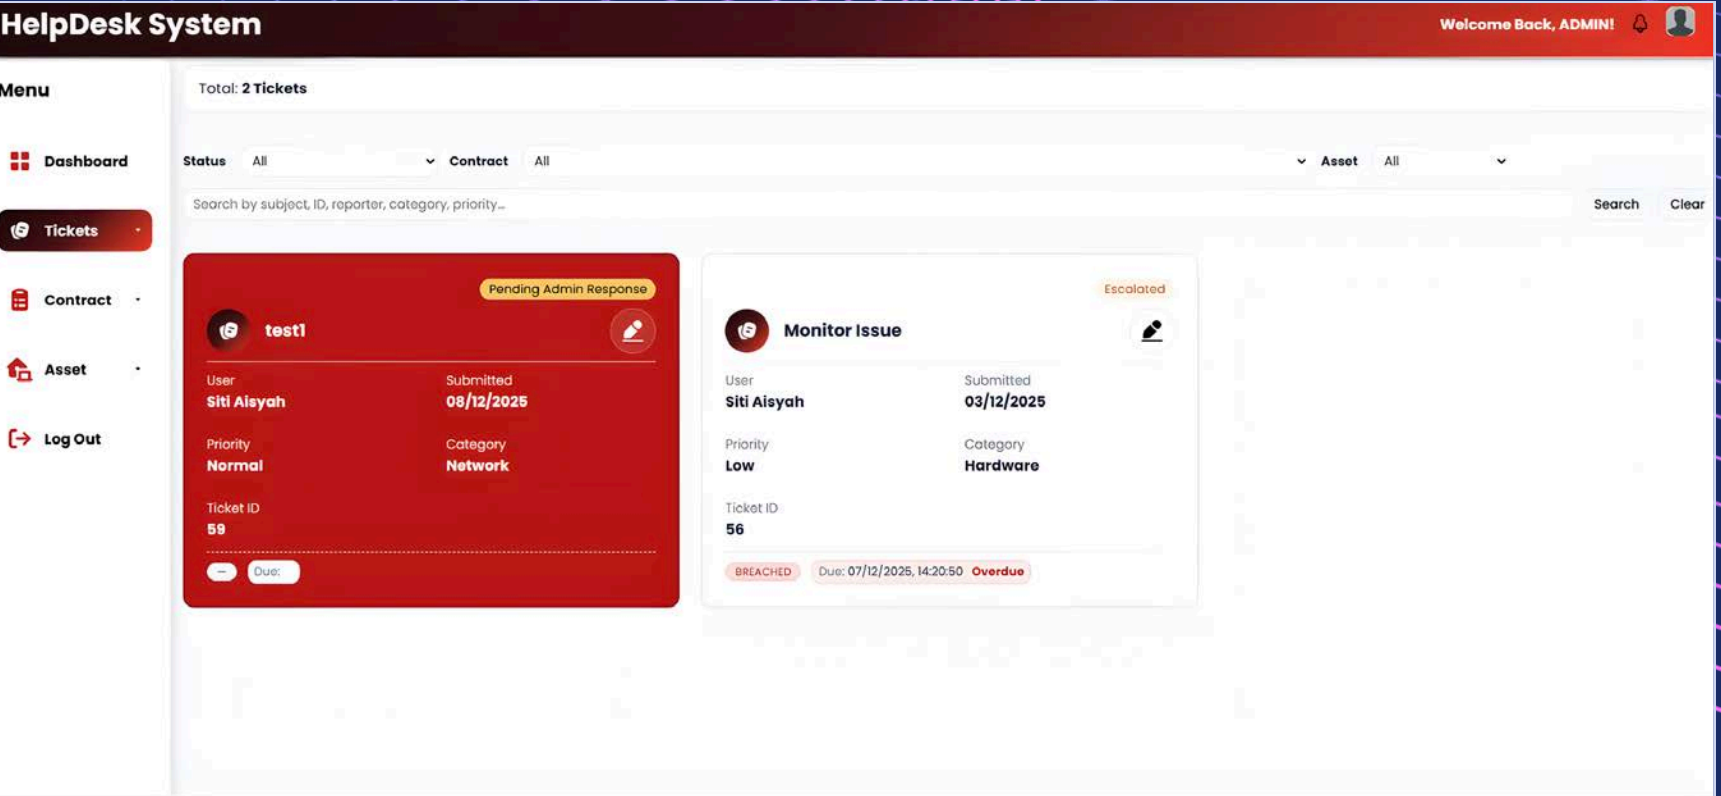

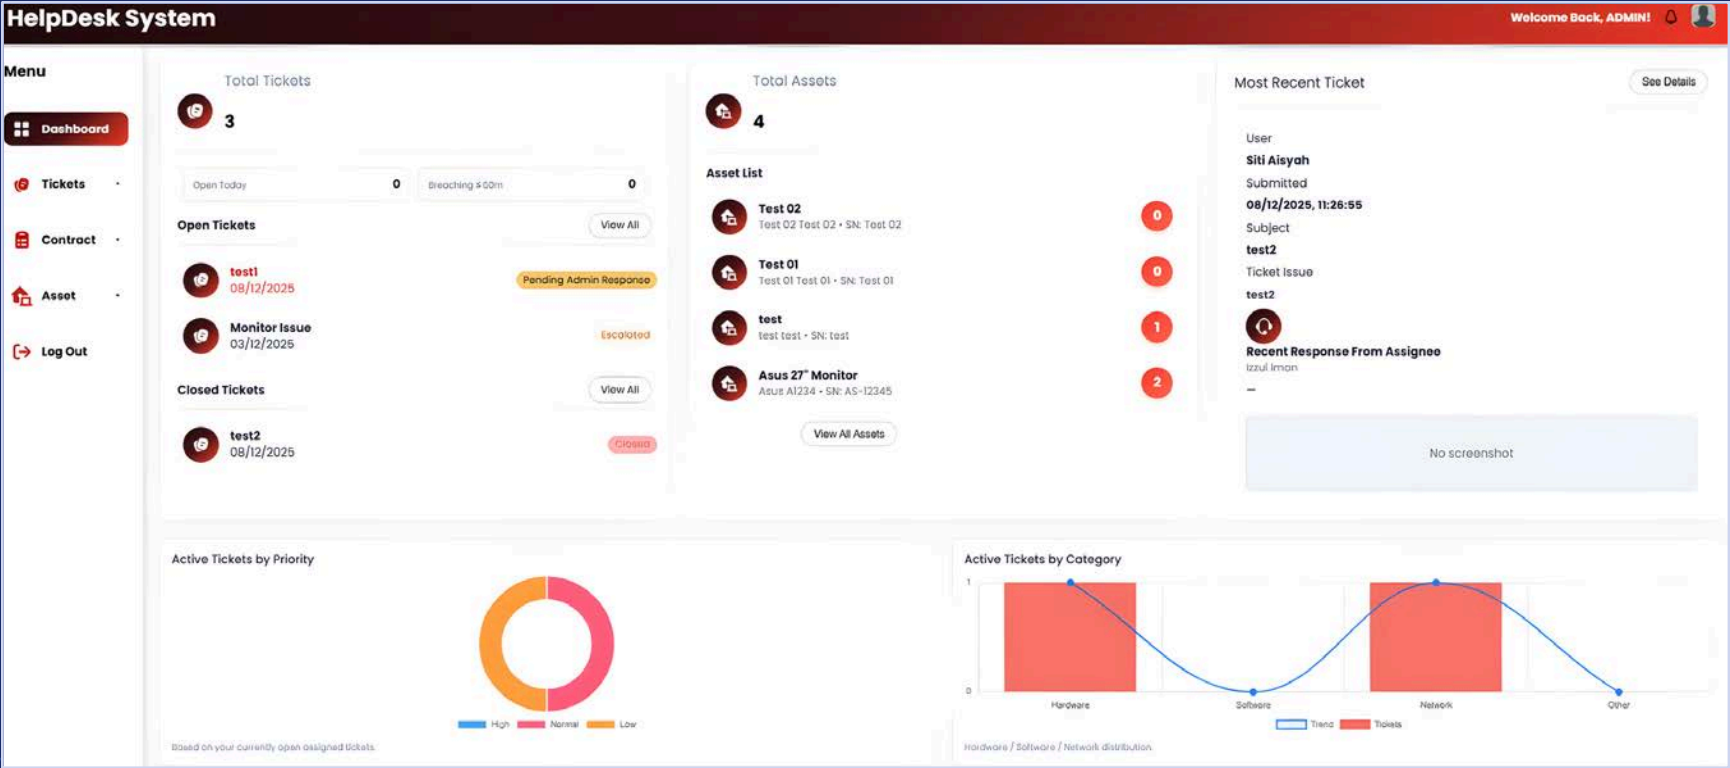

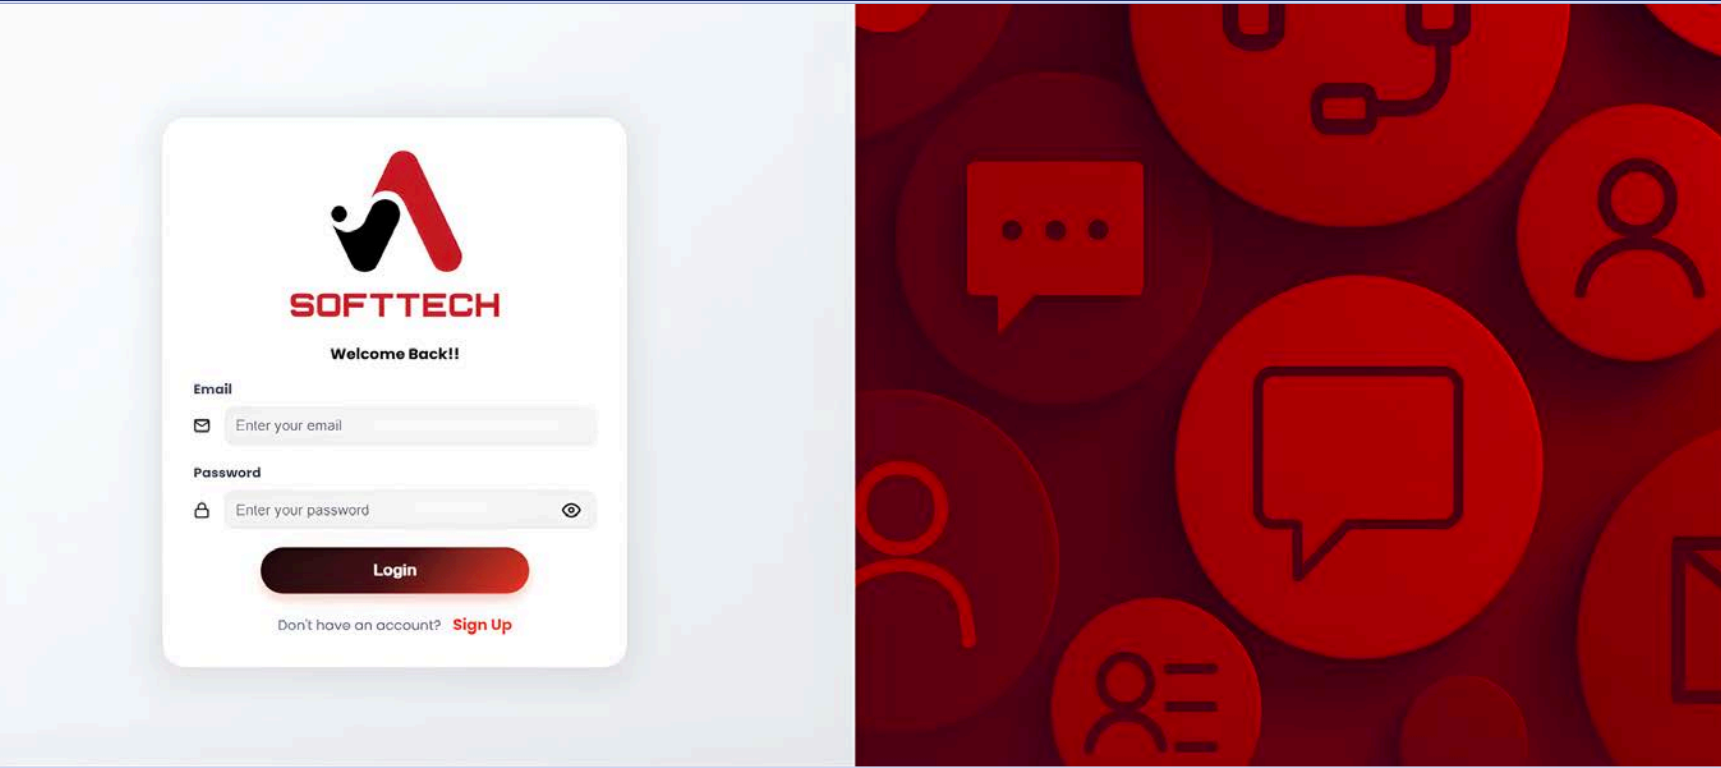

- Provide a user-friendly platform for submitting support tickets.
- Enable administrators to efficiently monitor, update and resolve issues.
- Enhance communication between employees and the IT support team.

Scope

- Online ticket submission with tracking capability.
- Administrative dashboard for ticket management and updates.
- Defined ticket status workflow: Open, In Progress, Escalated, Closed.
- Basic reporting on ticket volume and resolution metrics.

Benefits

- Faster and more structured response to support issues.
- Transparent and centralized ticket management for all stakeholders.
- Reliable historical data to support continuous improvement and strategic planning.

Inventory Asset Management System (IAMS)

Centralized digital platform developed to manage the complete lifecycle of company assets and inventory from acquisition to disposal.

Objectives

- Establish a scalable, efficient, and centralized system for asset & inventory tracking.
- Provide real-time statistics and visibility through an interactive dashboard.
- Support audit readiness, depreciation tracking, and document management (invoices, warranties, manuals)

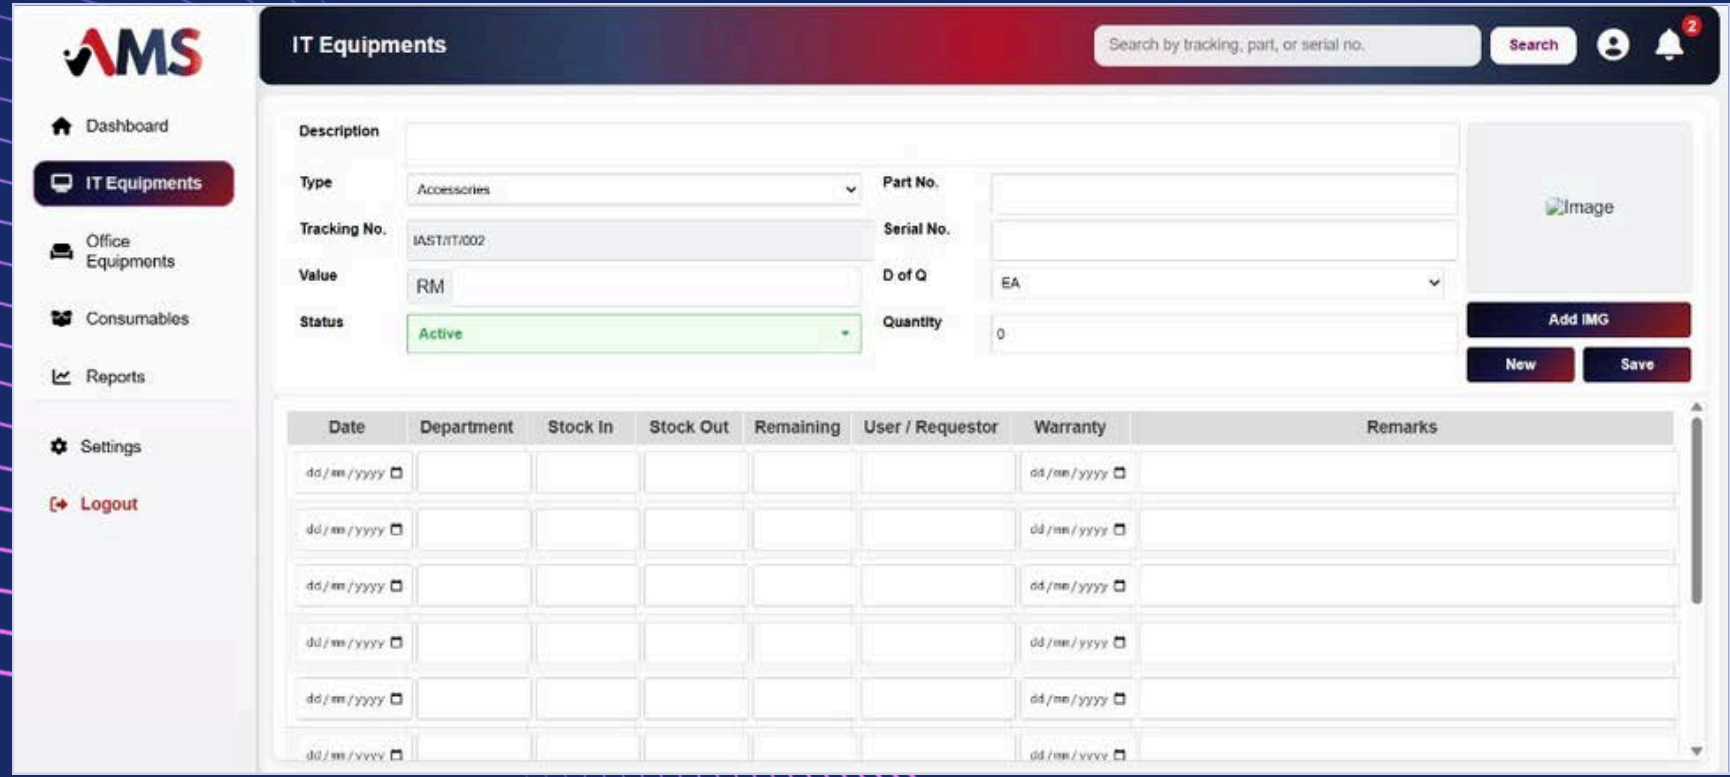

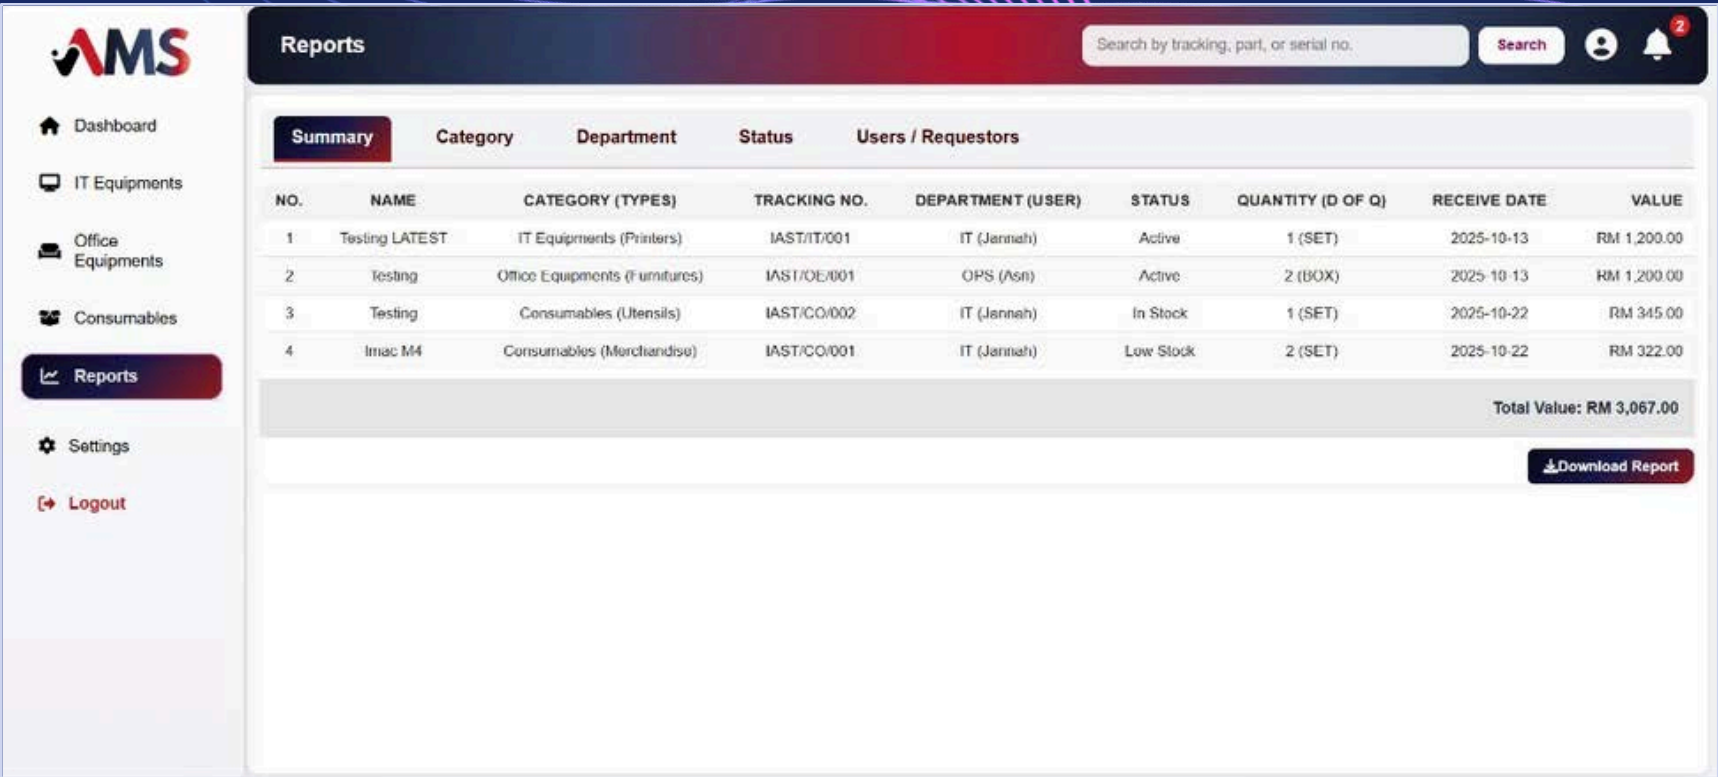

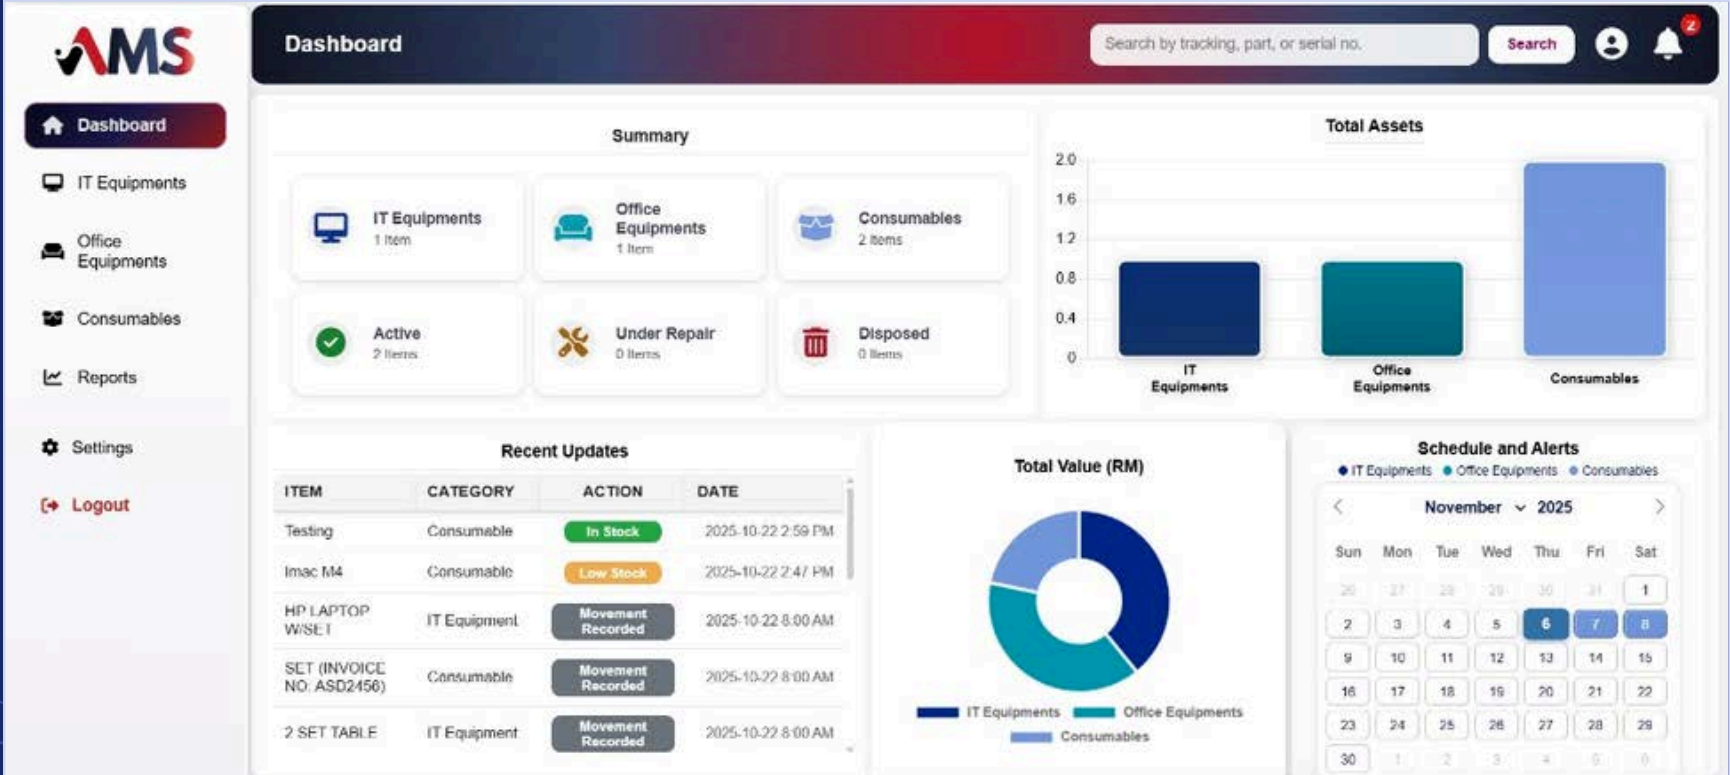

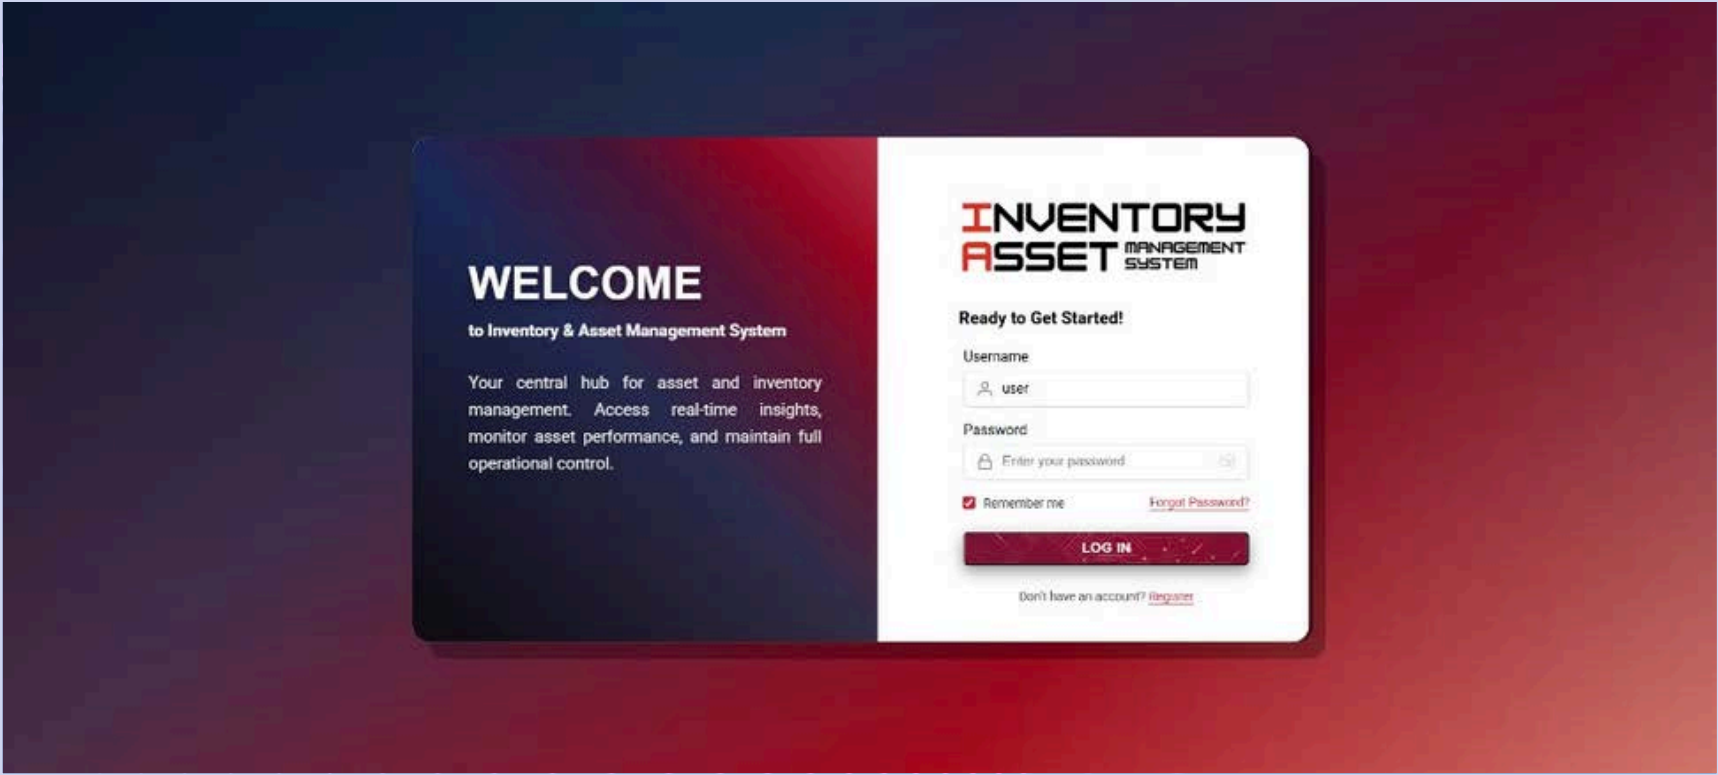

Key Features

- Dashboard interface with real-time asset data.
- Category & location-based tracking.
- Status monitoring: Active, Under Maintenance, Disposed.
- Transaction history with linked procurement & maintenance logs.
- Document upload (invoice, warranty, manuals).

Benefits

- Improved asset visibility and accuracy.
- Reduced redundancy and human error.
- Future-ready for automation through barcode or RFID integration.
- Potential for commercialization as a revenue-generating product.

Interfaces

IA SoftTech HRMS Application

A modern, cloud-based Human Resource Management System (HRMS) designed to simplify and digitalize HR operations while improving efficiency, transparency, and scalability.

Key Features

- Employee Management
- Attendance Tracking
- Leave Management
- Leave Balance Monitoring
- Admin Dashboard
- Data Export
- Notifications & Reminders

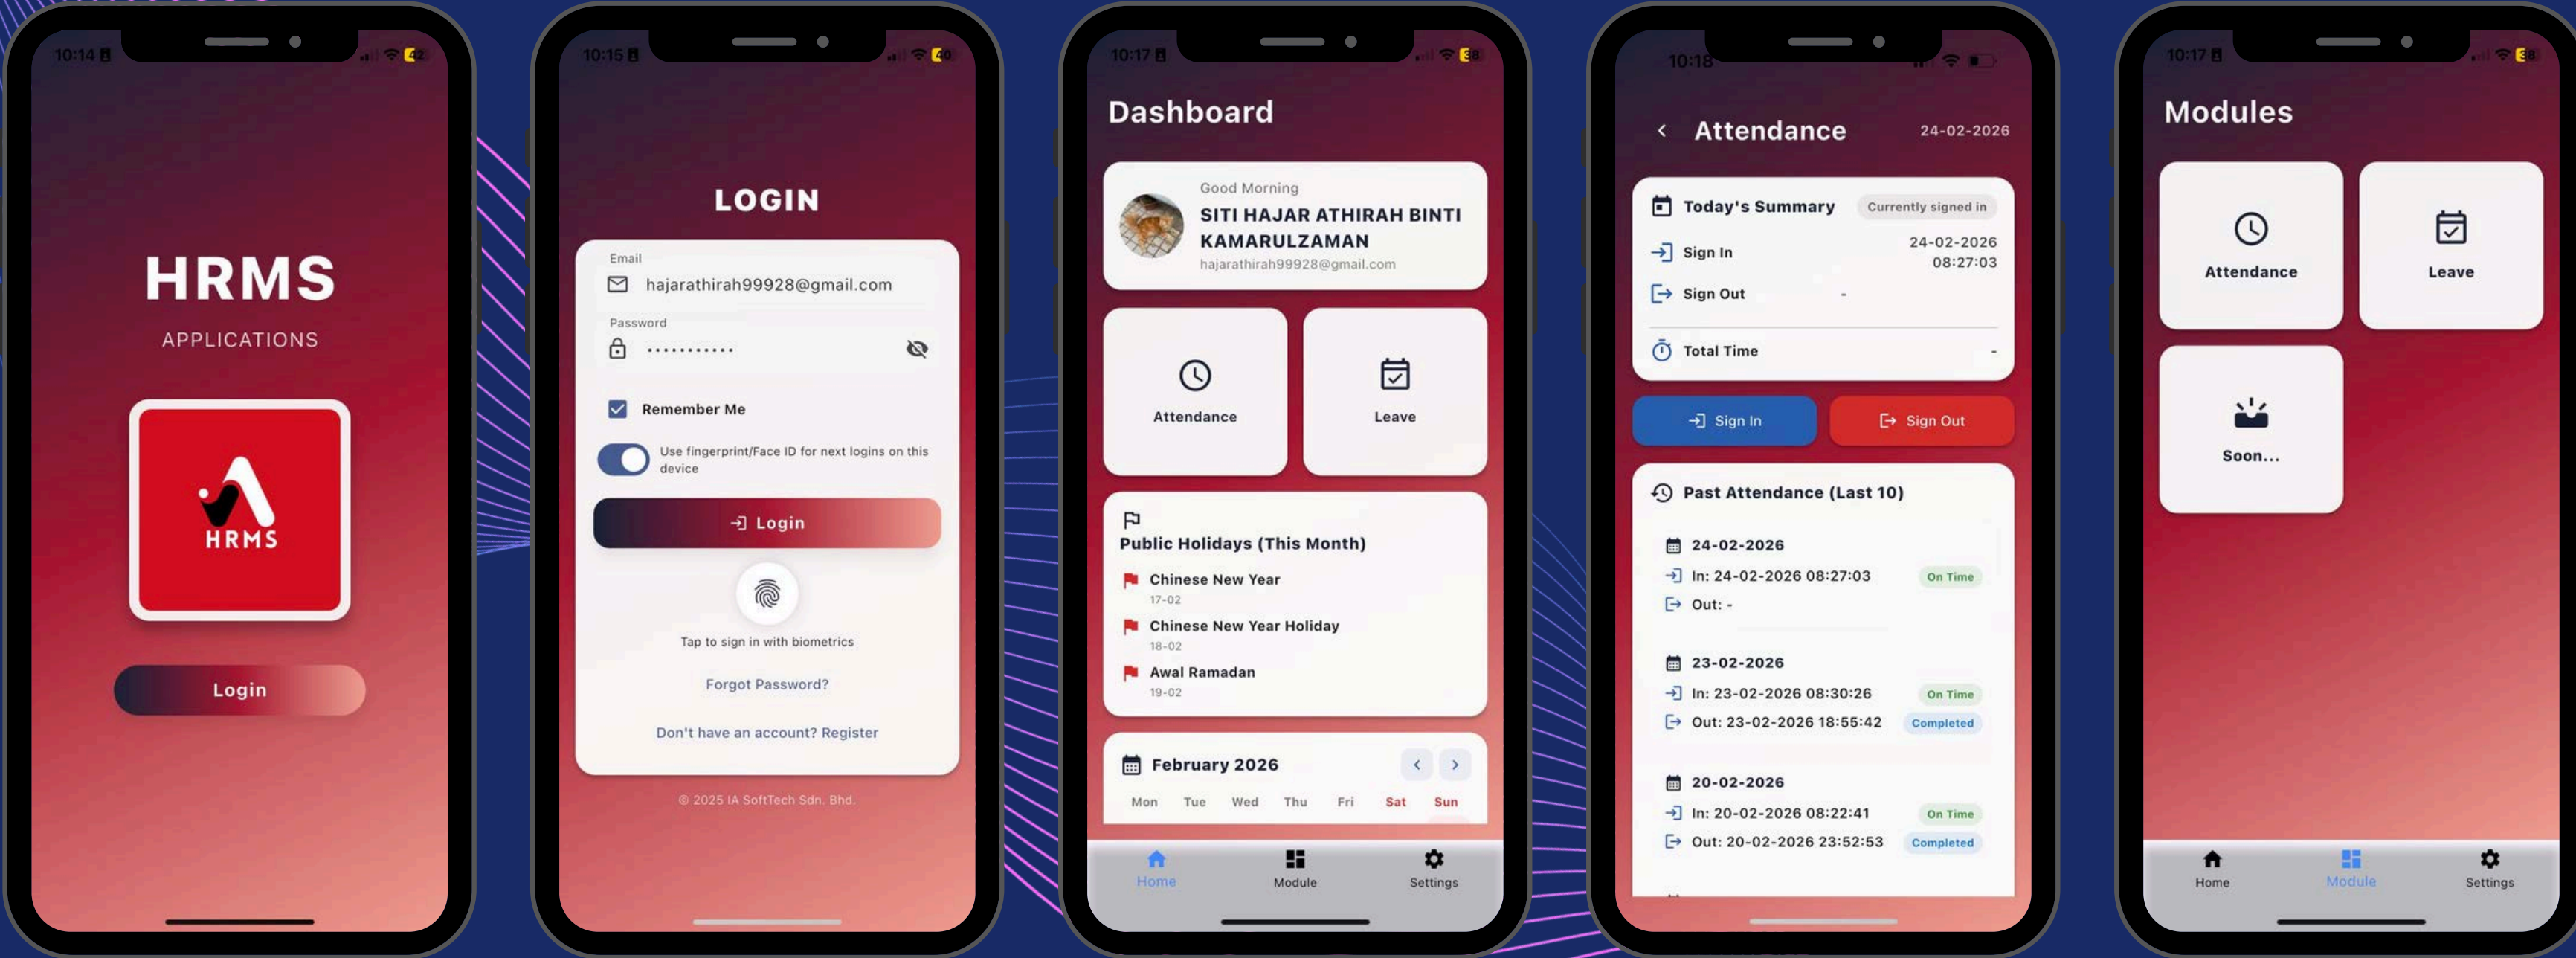

Technology Stack

- **Flutter** – Cross-platform mobile development for iOS & Android.
- **Supabase** – Secure cloud database, authentication, and backend services.

Benefits

- Streamlines routine HR processes and reduces manual workload.
- Provides transparent, reliable tracking of attendance and leave records.
- User-friendly interface designed for both employees and administrators.

Interfaces
